

The Right Connection®

Dixon Bayco

The Supertanker™ Package

Bottom Load System Problems Keeping You Awake? Our simple guarantee let's you rest easy.

Every last valve, vent, adapter, sensor . . . the complete package.

The Supertanker™ package from Betts and Dixon Bayco has all the reliable, high performance, bottom loading equipment you want plus something you really need. A three year warranty that covers materials and workmanship on all components installed on your new tanker as shown on our supertanker selection check list below. From the "overflow system" to the manholes and every valve, vent, adapter, gravity coupler and dust cap. The only exceptions are seals and wear surfaces, where life expectancy is highly dependant on material being hauled.

And there is more with Supertanker™, you get a level of service our competitor's simply can not match. If there is a concern with your new bottom loading system, call us and we will look after it, period! We will come on-site if needed to solve any problems. And you will always have access to our experienced engineering team staffed with tanker experts. We'll even help with competitor's systems. Our goal is your satisfaction.

Call your Betts or Dixon Bayco representative today, or visit us online at supertankerweb.com or use our simple one-page specification check list below. Just check off the equipment you need and tell your tank builder you want Supertanker™.

Want the World's Best Bottom Loading Package? Check this out...

	Supertanker™ Package	Brand "C"
